## LEADING MACHINERY AND SERVICE SOLUTIONS

SIMON dates back to the 1950's, when the original company started manufacturing their first Corrugators and Converting Machines for the corrugated board industry.

From our four global facilities in the United Kingdom (Runcorn), USA (Agawam), Germany (Viersen) and Poland (near Gdansk), along with our extensive agent base, SIMON continue to provide leading corrugating machinery and service solutions.

### SIMON S-PRESS HEAT TRANSFER SYSTEM

#### Simple Unique Design

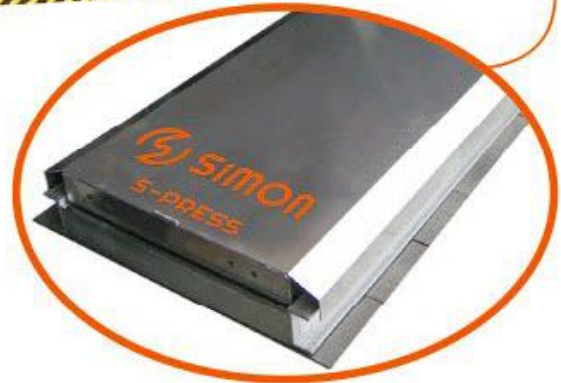

- Loading applied using single, one section, long-life air sacs.
- No pneumatic cylinders, solenoid valves, board width sensors or segmented air sacs.
- No damage to either fabric or open mesh type belts.
- Chosen by major Corrugator machinery manufacturers.

#### Improved board quality

- Zero crush/caliper loss.
- Flatter board.

#### Fast return on investment

- Typically less than 12 months.

#### Increased productivity

- 50% speed increases achievable on certain board grades.
- Improved board quality.

#### Reduced energy costs

- Save 20%-30% on Double Facer power consumption.

## DISMANTLING & INSTALLATION SERVICES

Our Service Team at SIMON Polska, comprising of both mechanical and electrical specialists, can assist you with a variety of full dismantling, installation and on-site commissioning / start-up for new and second-hand Corrugating and Converting machinery. Using some of the most advanced tools and equipment, this experienced team will provide you with flawless services at the most competitive prices.

## PRE-OWNED MACHINERY

We source and sell well-maintained Corrugating and Converting machinery from all the leading manufacturers:

- Full Corrugators  
BHS, MHI, Fosber, Agnati
- Flat Bed and Rotary Die-Cutters  
Bobst, Martin, Gopfert
- Flexo Folder Gluers  
Martin, Emba

## SIMON SPARE PARTS

As the only Original Equipment Manufacturer (OEM) for all SIMON, SCM and SHS Corrugating and Converting machines, we guarantee the quality and service to ensure your equipment performs to your high requirements.

## SELECTED NEW CORRUGATING AND CONVERTING EQUIPMENT

We have selected the Asian manufacturers which fulfil the European technical expectations in all ways but still fit a lower budget.

### ROTARY DIE CUTTERS

### LMC FAST-SET FLEXPLO FOLDER GLUERS

### FULL CORRUGATORS, INCLUDING CASSETTE SINGLE FACERS
